Hearing aid model overview

BICORE TECHNOLOGY

Having a conversation in busy and noisy environments is a challenge for hearing aid users.

They need to focus attention on speech yet still stay aware of the sounds around them. Not being able to do so can be confusing, tiring and even dangerous. Our Rexton BiCore hearing aids solve this challenge. BiCore technology automatically splits the focus area from the background sound and then processes the two signals separately. When the signals are merged back together the result is a smooth and fuller listening experience for the users even in demanding environments.

REXTON APP: A HEARING AID WEARER'S ALL-IN-ONE SMARTPHONE COMPANION

The Rexton App allows wearers to control their hearing aids conveniently and discreetly. It may also be used for remote tuning adjustments. The app also features our new Rexton Assist, for self-service hearing aids programming.

Download the Rexton App now!

Made for iPhone

Download on the App Store

GET IT ON Google Play

Bluetooth®

Rexton Assist

Rexton Assist, accessed via the Rexton App, works on a live, learning network that continuously evolves to provide solutions to any challenge faced by the hearing aid wearer.

Its initial training was performed using 13 million data points, learning from every interaction and getting better and more accurate all the time.

Rexton Assist brings convenience for both the user and the dispenser, improving the hearing aid performance based on the needs of the wearer, at any time, in any place.

Made for iPhone and Android (ASHA)

BiCore hearing aids can stream calls and audio from iPhones and Android phones.*

Streaming

You may direct stream from your TV and other audio devices using the Smart Transmitter 2.4 or the Smart Mic.

*Android phones must operate on ASHA protocol.

BICORE C R-LI AND C R-LI T

OUR MOST RELIABLE HEARING SOLUTION YET WITH THE LATEST BICORE TECHNOLOGY

The new BiCore C R-Li and C R-Li T are rechargeable and also feature Rexton Assist, combined with the 3rd generation of motion sensors and with My Voice technology.

CHARGERS

Connexx Travel Charger

This portable charger provides up to 3 charges on the go – without connecting to a power outlet.

· Charges in 4 hours
· 30-minute fast charging
· Easy insertion/removal of aids
· Automatic on/off
· USB-C, power adapter

Available for
· Standard: BiCore C R-Li and C R-Li T
· Standard: M-Core SR

Connexx Standard Charger

The stationary Standard charger is a very stable and easy to use unit, with a robust design and construction.

· Charges in 4 hours
· 30-minute fast charging
· Easy insertion/removal of aids
· Automatic on/off
· Fixed charging cable
· Built in magnet holds hearing aids in place

Available for
· BiCore C R-Li/Li T (optional)
· M-Core B-Li P/HP (included)

Connexx Charging+ Station

A multi-function charger that makes taking care of your hearing aids easy. It not only charges your hearing aids but also includes a drying function to ensure there is no moisture build-up. In addition there is a UV sanitizing cycle that helps destroy any harmful germs or bacteria from the surface areas.

· Charges in 4 hours
· 30-minute fast charge
· Integrated drying cycle
· Integrated UV sanitizing cycle

Optional for
· BiCore C R-Li/Li T
· M-Core B Li P/HP

Connexx Charging Station

· Charges in 4 hours
· 30-minute fast charging
· Integrated drying cycle

Available for
· M Core B Li M (included)

MOTIONCORE TECHNOLOGY

RX M-CORE

Most hearing aids analyze hearing situations solely on acoustic criteria, then classify them into a small range of predefined acoustic environments. But when people rely on their senses to keep them safe and sound, hearing clearly in every situation is a must – especially when they're on the job and moving through the day, where environments can change quickly. Our M-Core hearing aids use proven MotionCore technology that automatically recognizes and adapts to different hearing situations. This ensures users can hear speech clearly and get the most reliable impression of their environment.

UP TO 20 TIMES MORE HEARING SITUATIONS THAN BEFORE, AUTOMATICALLY

High Resolution Soundpro

Using a combination of inputs including real-time motion data, signal to noise ratio, and sound directionality, High Resolution Soundpro can continuously adjust the sound settings to provide the most reliable impression of the user's environment, automatically.

Motion Sensor

MotionCore technology features an integrated real-time motion sensor that detects a user's movement, and uses the data to even more accurately determine their sound situation. With this, M-Core hearing aids can automatically detect up to 127 different sound situations.

My Voice

The hearing aid recognizes the user's specific voice pattern, and integrates it naturally into what they hear. In turn, this provides the user with a natural-sounding voice that leads to high acceptance rates. And for that the user will communicate more and be more socially active, greatly improving their quality of life.
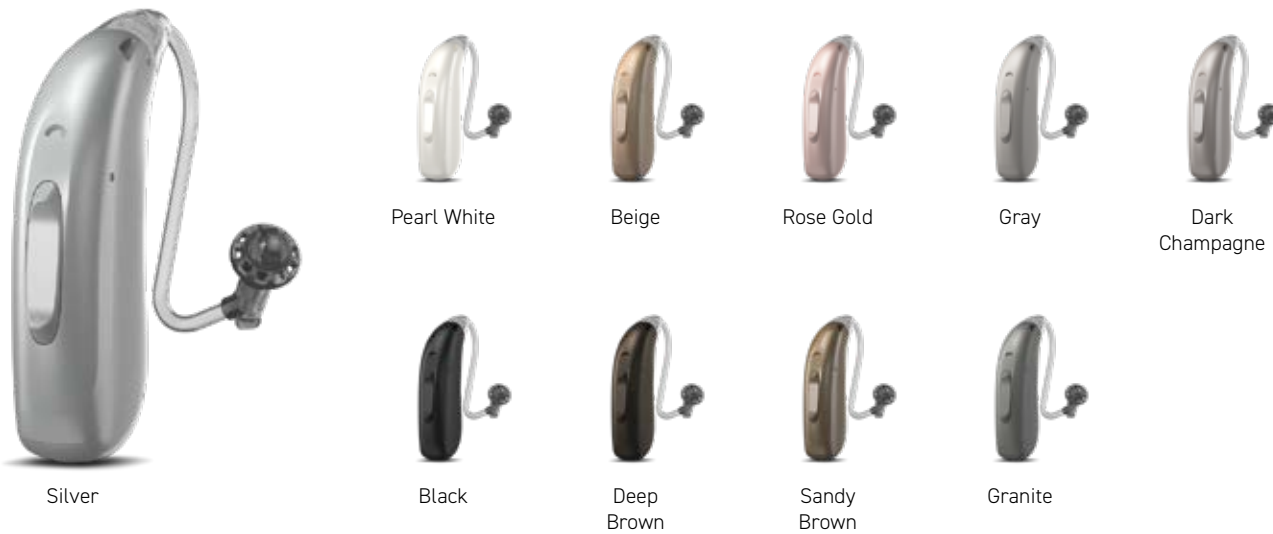

Telecare

Full remote fitting sessions via Connexx resulting in higher member convenience and satisfaction.

RECHARGEABLE BTE POWER
WITH MOTIONCORE TECHNOLOGY

Our BTE hearing aids come completely rechargeable, even up to our High Power models which have an unbelievable runtime of up to 61 hours on a single charge. They also feature MotionCore technology, which automatically recognizes and adapts to more hearing situations than ever. With our rechargeable high power BTE, more users can automatically get the most reliable impression of their environment than ever. M-Core B-Li hearing aids are designed to be durable, practical and easy-to-use, so your customers can rely on Rexton in any situation.

With a compact size that is comparable to a 312 battery device, the M-CORE B-Li M combines a modern design with rechargeability and Bluetooth connectivity.

RELY ON REXTON

It's a tough world out there, and even tougher when your hearing starts to go. At Rexton, we won't let hearing loss hold you back. Good hearing is critical: From getting the job done, to getting home safely and being there for the people who count on you, we know what's at stake. That's why we work hard to deliver proven hearing technology in the most reliable way. We understand what reliability means in real life, and make practical, easy-to-use products you can count on. Our hearing aids have been getting the job done since 1955, so whatever life throws at you, you can rely on Rexton.
