

Adore Li Activation

Your new Adore Li hearing aids have arrived in a sleep mode and will need to be activated.

To activate Your new Adore Li for the first time please follow these steps:

1. Plug the inductive charger into a power supply.
2. Confirm one green LED for each charging slot which indicates the charger has power and ready for use
3. Put the hearing instruments with attached receiver in the charging slots
4. Wait until you see the "Charge status" change to at least a single orange light.
5. You can now remove your new Adore Li for programming.

LED Charging status	
	Single orange LED: Charging status 0 - 33 %
	Two orange LEDs: Charging status 34 % - 66 %
	Three orange LEDs: Charging status 67 % - 99 %
	Three green LEDs: Hearing instrument is fully charged.
