INTRODUCING REXTON REACH:

Make sure every voice is heard

In group conversations, voices fluctuate, drop in and out, and move around. In noisy environments this can be a challenge for hearing aid wearers. Rexton tackles this with our groundbreaking **Multi-Voice Focus technology** available in our **latest Rexton Reach hearing aids**. With Reach you can hear and participate in group conversations even in background noise.

Combined with our **Speech Preservation Technology** which ensures speech stands out from the noise, and **AutoEcho Reducer** to make hearing in reverberant rooms, like the kitchen, much easier, Reach helps you to be a part of the conversation again.

REXTON REACH IS AVAILABLE IN 4 COLORS

REXTON PROVIDES LIFEPROOF™ HEARING

A PERFECT LIFESTYLE FIT

Rexton hearing aids are built tough, using high quality materials and rigorously tested to make sure they can handle what life throws at you. They are IP68 rated to resist dust, dirt, sweat and humidity and have added protection to withstand drops.

RELY ON
LIFEPROOF
REXTON

They feature direct streaming to your compatible Apple or Android ASHA phones and if you are using an iPhone, you can answer calls with **Tap Control** and talk **Handsfree with Headset Mode**.

TECHNOLOGY YOU CAN RELY ON

Leverage the power of AI to optimize your hearing aids with **Rexton Assist**, our intelligent self-service support system only available on the Rexton app.
